THE VOICE OF SPIRIT

The boy next door with the incredible gift

By Dominic Boag

RRP UK £13.95 US \$19.95

150 pages

The publisher writes: "While most teenagers are busy with school, exams, socialising and fighting with their parents, life was very different for Dominic.

"2006 saw Dominic's first experience with the unseen world and what would unfold on his journey to becoming one of the most successful (and youngest) UK mediums to date.

"Before 21, Dominic had opened his own spiritual centre, toured America and sold-out shows across the UK. Today, Dominic spends up to six months of the year in America, travelling from State to State using his beautiful gift to help heal hearts.

"The Voice of Spirit is your chance to get to know the man behind the medium. This book will take you through Dominic's first spiritual experience, losing his sight, opening his own centre and touring. His memoir follows his life up until the start of the Covid-19 pandemic.

"Let him show you that your loved ones continue to walk beside you, guiding you in the decisions that you make. Our loved ones do live on – just in a way we don't fully understand."

MAPS OF CONSCIOUSNESS

The classic text on exploring the mind and expanding awareness

By Ralph Metzner, PhD

RRP UK £21.79 US \$29.99

320 pages

The publisher writes: "In this highly acclaimed classic, psychedelic elder Ralph Metzner presents a guide to six ancient systems, once known only to the initiated few, to expand awareness and free your consciousness from exterior limitations and cultural conditioning.

"Ralph begins with the I Ching, revered by the Chinese as the oldest and wisest book in the world. He explains how it reveals change as the evolutionary constant and offers a hands-on method of divination and guidance.

"He explores the Hindu and Buddhist tantric practices of medieval India, ancient practices celebrating the union of male and female energies that transmute ordinary sense experience into ecstatic ritual worship.

"Ralph examines the tarot, revealing how the cards act as culture-transcending mirrors, bringing us through worlds of darkness and light in a complex journey.

"He looks at the practice of alchemy, explaining how it is a 'psychic chemistry' of inner union through which we can transform planetary and cosmic energies.
